

## **CPCPWT4022 Commission and Maintain Backflow Prevention Devices**

This unit delivers and assesses participants skills and knowledge required to safely test, commission and maintain backflow prevention devices.

Participants are mostly existing plumbers seeking to gain a backflow prevention endorsement to their plumbing license. The program is suitable to newly qualified plumbers and completing apprentices however they will not meet QBCC licensing requirements.

**Duration:** 18.5 hours (over 2.5 days) face to face theoretical and practical training.

**Delivery Mode:** Face to face

**Course Location:** Programs are delivered from the Plumbing Industry Climate Action Centre, Glenwood Campus, NSW.

**Pre-Requisites:**

- CPCPCM2043 Carry out WHS requirements
- CPCPWT3027 Install backflow prevention devices

**Entry Requirements:** This course has pre-requisite units which must be satisfied to be awarded this unit. Refer above to Pre-Requisites for further details. It is recommended that learners have acquired language, literacy and numeracy skills equivalent to Level 3 and Level 4 of the Australian Core Skills Framework (ACSF).

**On successful completion:** CPCPWT4022 Commission and maintain backflow prevention devices is a nationally recognised unit of competence and learners who successfully complete the program are issued with a Statement of Attainment.

**Fees:**

Please speak to an STC representative for further information regarding fees.
